Subject:	Allow disabled password auth towards Xen Shell		
Description:	For the Xen Shell it would be a good thing to have the option of disabling password auth, only allowing access by way of the ssh key provided at https://panel.bitfolk.com/account/security/.

This looks like it should be possible and fairly easy for us to do by using the "Match" syntax of SSH config to match each user name that wants password auth disabled.

This is now implemented; please see https://panel.bitfolk.com/account/security/#toc-allow-xen-shell-ssh-access-by-password-

2019-01-01 12:36 - halleck

Toggled.

Appear to work as it should.

Thanks!
