Subject:	403 Forbidden when accessing invoice for sibling account		
Description:	It is possible to pay an invoice for a "sibling" account without that being the active account, but when you finish payment and click the invoice number you are taken to a 403 Forbidden error page. Steps to reproduce: 1. Sign in with "Account A" 2. In your email, follow the link to https://panel.bitfolk.com/account/invoices/pay/{invoiceId} for "Account B" (a sibling account of "Account A") 3. Pay the invoice with Stripe 4. Click on the invoice link to https://panel.bitfolk.com/account/invoices/get/{invoiceId} after successful payment 5. Observe a 403 Forbidden error 6. Go back to the panel index and switch to "Account B" 7. Observe the URL in step 4 now works
