Subject:	RSS feed of BitFolk status	
Description:	Martin said:	
	Is it possible that we can get some kind of RSS feed for outages, etc, preferably split up into the hosts (urquell, kwak, etc).	
	I know we can get info from twitter/users@ - but it's more likely that I'll spot an RSS notification popup for an outage (assuming I've put it in	
	the right group!)
