<b>Subject:</b>	Nagios web interface has no logout facility		
<b>Description:</b>	<p>The Nagios web interface at <a href="https://nagios.bitfolk.com/nagios/">https://nagios.bitfolk.com/nagios/</a> doesn't have a logout facility. This means that any person with access to the same browser instance could access the Nagios information of the customer.</p> <p>Having said that, the Nagios web interface is currently limited to merely viewing service/host definitions and acknowledging alerts.</p>

- Status changed from New to Closed

Since the switch to Icinga2 this is taken care of.
