Subject:	Proper SSL certificate needed		
Description:	The Nagios web interface requires a proper SSL certificate. Either one needs installing for nagios.bitfolk.com, or we could perhaps consider moving it to https://tools.bitfolk.com/nagios/ since that already has an SSL certificate.

- Status changed from New to Closed

A wildcard SSL certificate was purchased for other BitFolk web sites, so it was also put into place for nagios.bitfolk.com.
