<b>Subject:</b>	IPv6 support for BitFolk resolvers		
<b>Description:</b>	BitFolk's redundant resolvers that are currently at 85.119.80.232 and .233 should also be available on IPv6, and hopefully equally redundant.		

History

2011-03-13 08:25 - admin  
- Status changed from New to Closed  
Done:

2001:ba8:1f1:f205::53  
2001:ba8:1f1:f206::53

These are clustered in the same way as the IPv4 addresses: two floating IPs amongst four hosts, split between TFM4 and TFM8.
