

Panel - Feature # 65: Update distro version automatically

Status:	New	Priority:	Low
Author:	chaldene	Category:	
Created:	2011-05-02	Assigned to:	
Updated:	2021-03-13	Due date:	
Subject:	Update distro version automatically		
Description:	Support updating the distro version automatically instead of needing users to update via the panel. Perhaps "virt-inspector": http://libguestfs.org/virt-inspector.1.html could be used to query the image before it's booted?

Good idea.

libguestfs appears to be a bit of a nightmare in Debian lenny at least:

<http://libguestfs.org/download/binaries/debian-packages/README.txt>

so in the mean time it might just be easier to set it from the thing that does the install (xen-shell at the moment).

I imagine that this has improved since (the URL above now 404s). Perhaps this is worth revisiting?
